Legislative and Regulatory Affairs	246
Training and Education Programs	250
Conclusion	252
Chapter 6: Environmental Auditing and Environmental Management	261
Benefits and Risks of Environmental Auditing Programs	262
Legal and Corporate Benefits of Auditing	263
Sarbanes-Oxley	267
Public Disclosure and Audit Privilege Legislation	273
Designing an Effective Auditing Program	278
Elements of an Effective Program	278
Corporate Program Review	286
Facility Assessments	290
Ensuring the Integrity of Auditing Programs	295
Controversies As to What “Independent” Review Is	296
Certification of Auditors	297
Standards for Environmental Auditing	300

Verification and Corrective Action	301
National and International Environmental Auditing Policy	303
State Roles in Environmental Auditing	303
EPA and OSHA Environmental and Safety Audits	304
International Environmental Auditing Policy	313
Overview of ISO 14001 and Determinations to Certify or Not Certify—Political and Strategic Issues	323
Conclusion	330
Chapter 7: Review of Acquisitions	349
Scope and Structure of Review	353
Information Reviewed	355
Licenses and Permits.	356
Regulatory History and Current Status	356
Prior Ownership and Operations.	358
Potential Off-Site Liabilities.	360
Insurance Coverage	360
Possible Risk-Mitigation Mechanisms	361
Structure of the Transaction	361
Contract Provisions	361
Prior Agreements With Regulatory Authorities	363
Insurance Coverage	363
Conclusion	364
Chapter 8: Waste Minimization	369
Solid Waste Reduction: A Case Study	369
EPCRA and Emissions Reductions.	371
Voluntary Emissions Reductions	372
Advanced Waste Minimization Programs	374
Conclusion	376
Chapter 9: Dealing With Lawyers, Engineers, Business Managers, and Consultants	381
Dealing With Lawyers	381
Dealing With Engineers and Business Managers.	386
Dealing With Consultants.	389
The Changing Roles of Environmental Professionals	393
Chapter 10: Dealing With Federal and State Agencies, Citizen Groups, the Press, and the Public	397

The Regulators	397
Federal Regulators	397
State and Local Regulators	403
Citizen Groups	406
Public Relations.	408
Dealing With the Press.	408
Dealing With the Public	410
Chapter 11: The Environmental Impact Statement Process	417
The Lead Agency	422
Assembling a Task Force	423
Preparation of an Environmental Impact Analysis	423
Accurate Data.	423
Time Factors	424
Preparation of a Draft EIS	424
Public Hearings	425
Written Comments	425
Outside Consultants.	426
Public Involvement	426
Conclusion	426
Chapter 12: Green Arthritis.	431
We Have Come a Long Way, but Is It Far Enough?	431
Early Symptoms	433
Is There Motivation for Change at EPA?	434
What’s in It for the Environmental Groups?	436
A New Shade of Green	438
The Business Environmental View—Looking Backward	439
But Enough of This Negativity!	440
Moving Forward	442
First, Get a Medical Check-Up	442
Second, Develop a Broader View of Corporate Responsibility	445
Third, Understand Your Own Environment	445
Fourth, Change Your Perspective—This Is Enlightened Self-Interest, and Should Not Be Viewed by You or Your Company as Tree Hugging.	446
Fifth, Make Sure That You Have the Right Resources	447
Sixth, Create the Right Climate for Innovation	448

Conclusion	449
Chapter 13: Conclusion	453
Appendices
